

Here are some of the Advantages of 360 Hosted VoIP Services:

- **Cost Savings** – Call costs are significantly cheaper with 360 Hosted VoIP. Switch now and save. Choose the Advantage Plan and you'll have no large upfront investments and nothing to maintain. We'll provide and maintain all the equipment. We also offer a Purchase Option that allows you to own your phonesets and equipment for an even lower monthly cost.
- **Total Cost of Ownership (TCO)** – 360 Hosted VoIP Services deliver a **better TCO** for businesses with geographically dispersed branch offices, mobile and remote end-users. Call Center and other **advanced features offered by 360 Hosted VoIP** offer even greater TCO compared to traditional premise based systems with the same features without all the maintenance and licensing fees.
- **100% Scalability** – Grow your phone system as you grow your business. Because 360 VoIP Services are virtual systems adding a new extension is as simple as ordering a new VoIP phone and any additional lines then plugging it in. It's that simple.
- **Ultimate Flexibility** – Nothing surpasses 360 Hosted VoIP when it comes to mobility. Companies with branch offices, outside sales force, and remote workers won't miss a beat when it comes to business opportunities. Calls are routed through the hosted VoIP Service to whichever number(s) have been provided.
- **Perfect for Telecommuters** – Telecommuters can easily access the full range of features of the office system as long as they have an Internet connection.
- **Easy to Administrate and Setup** – Intuitive web interface enables you to manage, monitor, and make changes to your system at any time. 360 Hosted VoIP can be set up quickly and easily. You can be up and running in a matter of days.
- **Virtual Presence** – 360 Hosted VoIP allows you to extend your reach by getting local virtual numbers in a particular city without incurring long distance or 800 number charges.
